

# HUMBOLDT COUNTY GROWERS ALLIANCE

Attn: Mowgli Holmes  
May 26, 2019

Mr. Holmes:

The Humboldt County Growers Alliance would like to thank you and Phylos BioScience for supporting HCGA over the past few years. However, after careful consideration, our Board of Directors has unanimously decided to sever the relationship effective immediately.

We would like to offer you some background on why this decision has been made, in hopes that it may add some perspective on engaging with our membership and community in the future. There have been a host of accusations regarding Phylos and its goals and actions as a company, and the details surrounding some of the science involved. For the record, our decision was based on a general lack of transparency with our membership and community, and the accompanying mixed messages from Phylos.

Sincerely,

Terra Carver  
Executive Director  
Humboldt County Growers Alliance
